Professional Summary

Software Developer with 2 years of experience in frontend and full-stack development, specializing in HTML, CSS, JS, Angular, C#, ASP.NET Core, and SQL Server. Experienced in building responsive web applications and RESTful APIs with strong knowledge of OOP, debugging, and database systems. Passionate about developing efficient, user-friendly solutions and continuously improving technical skills.

Work Experience

Full Stack Developer (Remote) – Zolatik (Pvt) Ltd. | 2025 Apr – 2025 Sep

- Developed responsive front-end applications using Angular, TypeScript, HTML, CSS, and Bootstrap, integrated with ASP.NET Web API and SQL Server to deliver scalable and user-friendly solutions.
- Performed API integration, testing, and authentication implementation, utilizing Visual Studio, VS Code, and SSMS for development, debugging, and efficient frontend–backend communication.

Junior Software Developer – Global Strategic Solution (Pvt) Ltd. | 2023 Sep – 2024 Dec

- Developed Windows-based applications using C# and Visual Studio, implementing features based on project requirements and ensuring functionality through testing and debugging.
- Designed UI/UX layouts and responsive landing pages using Figma, HTML, and CSS to improve user experience and interface quality
- Collaborated in Agile development environments, contributing to coding, code reviews, and maintaining technical documentation for team support.

Assistant Document Controller – AITCO | 2025 May – Present

- Managed document submissions and responses with the main contractor via email, maintaining logs, status tracking, and version control to ensure smooth document flow.
 - Organized and maintained project documentation, registers, and reports using Microsoft Word and Excel, and managed cloud storage for secure and efficient access.
 - Coordinated worker inductions, fingerprint attendance systems, and timesheet management using ZKTeco software, supporting workforce tracking and operational efficiency.
-

Technical Skills

Frontend: HTML, CSS, JavaScript, Angular, Bootstrap

Backend: C#, ASP.NET Core, Web API

Database: SQL Server

Tools: Git, GitHub, Visual Studio, VS Code, Figma, MS Office

Concepts: OOP, REST APIs, CRUD, Debugging

Education

Higher National Diploma (HND) in Computing – Software Engineering

BTEC Level 5 | ESOF Metro Campus | 2022 – 2024

Diploma in Computing & Diploma in English

Royal International College | 2020 – 2021

Projects

POS System (Windows Application)

- Developed a real-time desktop POS system using C# .NET and SQL Server.
- Implemented inventory management, pricing control, sales processing, and reporting modules.
- Designed the application for reliability and complete functionality for practical business use.

Zolaprep Student Hub

- Worked as a Full Stack Developer on the Zolaprep Student Hub platform.
- Developed modules for students, courses, teachers, and notes.
- Implemented full CRUD operations using Angular (TypeScript) for frontend and ASP.NET Core Web API for backend.
